

Youth Hockey Association Consulting Breakdown

Goalcrease can provide elite training in affordable and convenient ways. Since 2002, Goalcrease has served youth hockey programs in the Twin Cities and beyond with programs customized to fit their size, budget, and schedule.

1-on-1 training sessions at Goalcrease. By far, our most popular option for both associations and individual customers. This can be set up in a number of ways within the following parameters.

- **Discounted** rate of **\$105** total price per session . (regular price is \$145 each) This can be split between the families and the Assoc.
- Online scheduling done by the families
- Invoice sent to association by Goalcrease once or twice per season
- Sessions take place at Goalcrease with 45 minutes of instruction time.

Co-Pay set up: Families/participants pay Goalcrease when they register. Goalcrease then invoices the association later for the remaining amount.

A. Five pack Examples (5 1on1 sessions at Goalcrease)

Participant's initial payment	Association's contribution per package
\$200	\$325
\$150	\$375
\$100	\$475
\$50	\$425

B. Seven pack Examples

Participant's initial payment	Association's contribution per package
\$350	\$385
\$250	\$485
\$150	\$585
\$100	\$635

Other ways to customize your 1-on-1 package offerings

- Offer Larger packages for older goalies, smaller packages for younger (mites, maybe squirts)
- Option to register with a training partner (can either cut cost in half or double the ice time)
- Offer the option for goalies to buy a second package AFTER they have completed their initial package
- FREE SESSIONS. A few associations pay for 100% of the training cost. We don't recommend this, because we get more cancellations and no shows, causing a greater waste of resources.

Other Association options from Goalcrease include

- Tryouts, hosting evaluations and/or grading at scrimmages
- Goalcrease coaching attending team practices
- Goalcrease running goalie clinics at local rink
- Goalcrease hosting clinics for your goalies at our facility
- Coaching seminars/education
- Mite specific programming
- Video analysis (increased access to streaming video of games can help us do this)

CURRENT GOALCREASE ASSOCIATIONS PARTNERS, 2021

- Edina
